

Dental Puzzler

Juan, Tamika, Terry, Alora, and Ling are going to the dentist on Monday. Each friend is going to bring a different item to donate to children who are less fortunate than themselves: red toothbrush, toothpaste, dental floss, mouthwash, and an electric toothbrush. Can you figure out what each brings? (Below are some clues.)

Sisters brought toothbrushes

Ling brought dental floss

Juan's donation comes in a bottle

Alora forgot extra batteries for her donation

Terry's item goes with Alora's and Tamika's

(Activity Answer: Juan-mouthwash, Tamika-red toothbrush, Terry-toothpaste, Alora-electric toothbrush, Ling-dental floss)
